

CYF4-Enveloc Remote Backup Government Cloud Edition

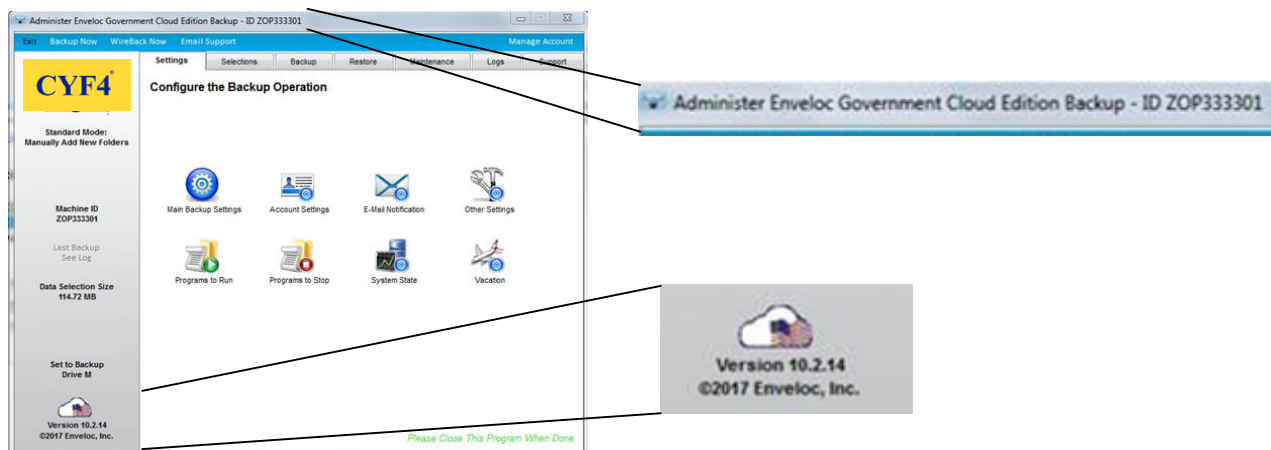

CYF4®

CYF4-Enveloc announces availability of storage in the FedRamp approved Microsoft Azure Government Cloud. By installing our special edition, backups created with CYF4-Enveloc are securely transmitted using SSH protocol to CYF4- Enveloc’s server in the Azure Government Cloud.

The Government Cloud Edition of CYF4-Enveloc Remote Backup is available at:

<https://enveloc.com/cyf4/setupcyf4govcloudbackup.exe>

Notice the Window Caption at the top and the “Government Cloud” symbol lower left. All Government Cloud Edition Machine ID’s start with the letter “Z”.

The backup code is identical to our standard edition. Backups are encrypted with FIPS 140-2 approved algorithms (AES 256-bit). The only communication protocol we support on this edition is AES encrypted SSH. Offsite data redundancy is provided by Microsoft Azure Government Cloud Services. All backups, including initial seeds and large restores, are through the internet – no media seeds nor restores.

“We hereby certify that Enveloc Government Cloud Edition securely stores and retrieves client backup sets solely on the Microsoft Azure Government Cloud which is FedRamp Certified as per the following link: <https://www.microsoft.com/en-us/trustcenter/compliance/fedramp> “

Pricing per Gigabyte for Pro is \$1.05 and for LocalRemote is \$0.75. Per machine fees remain the same. For clients with large capacity requirements (over 500GB), please contact CYF4 for custom rates.

***Note that while Storage is FedRamp certified, CYF4-Enveloc software itself is applying for FedRamp certification**
